

Switchable Film

Switchable Film is the ideal choice for anyone looking to transform their existing glazing into Switchable Glass! This product offers a cost-effective solution with no loss of quality or functionality in comparison to other Switchable Glass solutions.

The film has a hard coated PET plastic outer layer providing protection and an electrostatic self-adhesive layer making installation to glass simple.

This product is Smart Home compatible and can also be used with HD or 4K projectors to provide a rear projection screen. Film sizes are available up to 1.5m x 4m with custom sizes and shapes available on request.
